Dear Sir/Madam,

Following our previous communication regarding the declaration of the state of alarm in Spain and as it has been widely reported, as the COVID-19 pandemic continues to expand, yesterday the Spanish Government tightened the lockdown and published Royal Decree 10/2020 dated March 29th, banning all non-essential economic activity from today until April 9th inclusive. Please also note for your information that Friday April 10th is a National holiday in Spain.

At this time, it is of course too soon to know the organisational and economic impact that these exceptional events may have on our company, but our team of engineers, technicians, area managers, as well as our administrative and export departments, will continue to work through teleworking and will remain at your service for any assistance you may require during these difficult times. We remind you that you can contact through the usual channels, by email or by telephone.

We take this opportunity to inform and assure you that we are doing our very best to minimize the impact this Force Majeure situation can have on ongoing projects, despite the difficult circumstances.

We would also like to remind you that ZITRON has taken proactive steps to ensure the continuity of operations and to protect its clients and employees, the details of which we have posted on our website, for your information.

Yours sincerely,

Gijón (Spain), 30 March 2020.

Fdo. Macarena Fernández-Escandón Ortiz.
